

Accepting On Site

Present estimates to customers on-site and capture electronic signatures immediately to speed up the sales process.

PaintScout lets you present estimates to customers in person and capture their electronic signature on the spot, skipping the email-and-wait process entirely.

How do you accept an estimate on site?

1. Click the drop-down arrow beside the send button and select **Preview/Accept**.

The screenshot shows the 'Interior Estimate' form in the PaintScout app. At the top, there's a 'BACK' button and a 'SEND...' button with a dropdown arrow. A green box highlights the 'Preview/Accept' option in the dropdown menu. The form contains fields for 'CONTACT' (Emma Goldwyn), 'JOB ADDRESS' (123 Alpine Way), 'ESTIMATE ID' (2023), and 'DATE' (05/13/2024). There's also a 'Preview' button and a 'SEND' button at the bottom right.

2. A preview of the estimate will appear for you to review with the customer. Turn your tablet or phone around to walk through the presentation together. When the customer is ready, click the **Accept** button in the top right corner.
