

Crew Notes

Add crew notes to areas, surfaces, line items, or work orders to communicate important information hidden from customers.

Crew notes in PaintScout are internal notes hidden from customers that appear only on work orders. Use them to communicate important job details to your production team.

What is a crew note?

A crew note is a note hidden from the customer that only shows on the work order. You can write crew notes in four different places:

Option 1: On an Area

Include a note for your team about an entire area such as the office.

1. Open the area and select the **add notes** button along the bottom.

Office
Walls
Width: 10ft Length: 11ft Height: 11ft

 EDIT

Area Price \$338.30
Area Hours 3.25

Other Options:

- Establish default crew notes by crafting a crew note for a surface in your settings. This ensures that these notes consistently show up whenever the surface is added to new estimates.

- If you'd like your crew notes to stand out more, we can highlight them in yellow. Just reach out to our [support team](#) .
