

# Dashboard

Track sales team performance and analyze key business metrics in PaintScout.

✓ **Start here:** Begin with [Dashboard Metrics](#) and [Filtering the Dashboard](#).

The Dashboard is your quick view of estimate performance in PaintScout. Use it to monitor sales activity, review conversion metrics, filter results, and open Leaderboards.

## In this section

- [Dashboard Metrics](#) — Learn what each metric means, including Sales, Total Estimates, Estimates Open, Win Rate, Dollars Won, and Close Rate
- [What is Close Rate?](#) — Understand how Close Rate differs from estimates that remain open
- [Filtering the Dashboard](#) — Narrow Dashboard data by date range, estimate type, and estimator
- [PaintScout Leaderboards](#) — Compare Sales and Win Rate performance across the PaintScout network

i Need deeper analysis? Use [Reports](#) for detailed reporting across estimates, invoices, payments, and team performance.

# Dashboard Metrics

Learn what each dashboard metric means including sales totals, win rate, dollars won, close rate, and open estimates tracking.

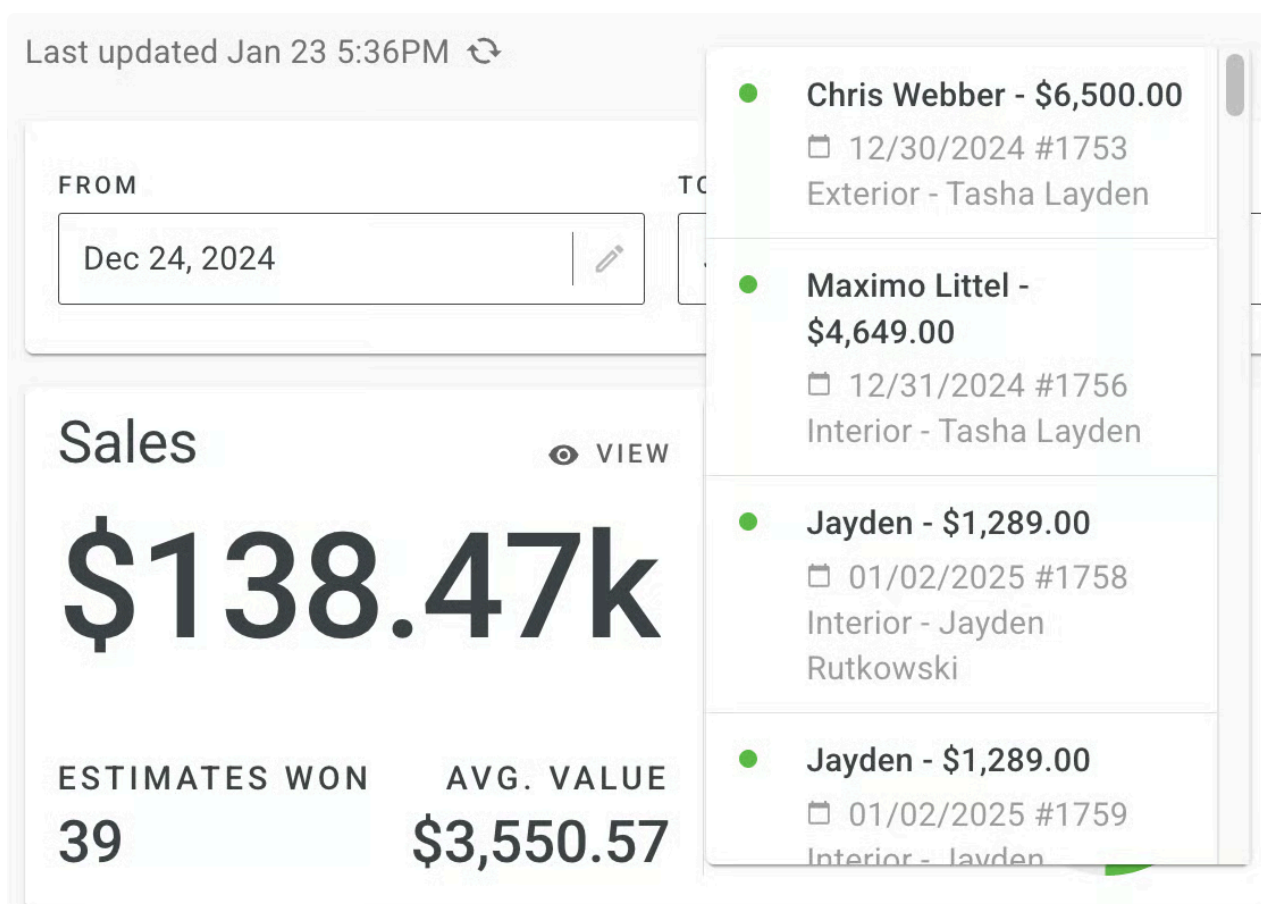

The PaintScout Dashboard is the first screen you see after logging in. It displays key sales metrics including total sales, win rate, close rate, dollars won, and open estimates.

## What does the Sales metric show?

Sales is the total dollar amount of accepted estimates. It also displays the number of estimates won and the average value.

Click the **View** button to expand and see a detailed list of all accepted estimates.

## What does Total Estimates show?

Total Estimates counts all estimates created during the selected period in statuses: *Sent, Viewed, Accepted, On Hold, and Declined*. **Draft estimates are excluded.**

*Sent* and *Viewed* estimates are sorted by creation date. *Accepted* estimates are sorted by acceptance date, so you can gauge your win rate and conversion performance.

## What does Estimates Open show?

Estimates Open is the count of estimates still awaiting a customer decision. This includes any estimate in *Sent* or *Viewed* status.

## What is Win Rate?

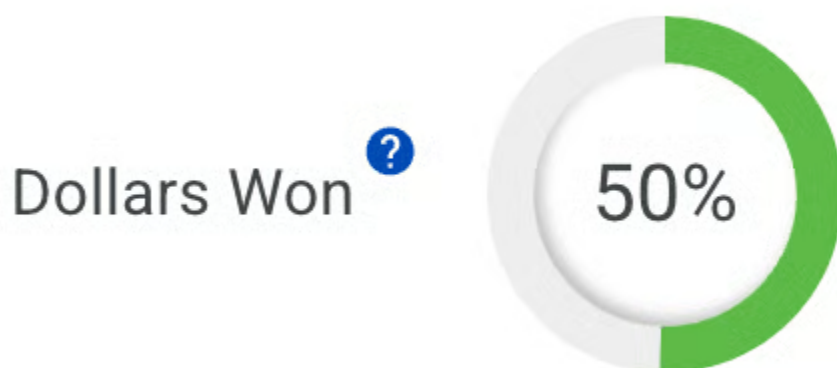

Win Rate is the percentage of delivered estimates that were accepted by customers.

---

## What is Dollars Won?

Dollars Won is the percentage of total estimate dollars that your team successfully closed.

---

## What is Close Rate?

Close Rate is the percentage of estimates that receive a clear decision — either accepted or declined — rather than remaining open.

Close Rate  NEW!

57%

For example, if you sent 10 estimates, 5 were accepted, and 5 were declined, your Close Rate would be 100%, as all estimates have been resolved!

 **Pro tip:** Your Close Rate should usually always be 100% or very close to! Get those yes's and no's from customers!

## Related articles

### What is Close Rate?

Understand how close rate measures the percentage of estimates receiving a decision, either accepted or declined, without remaining open.

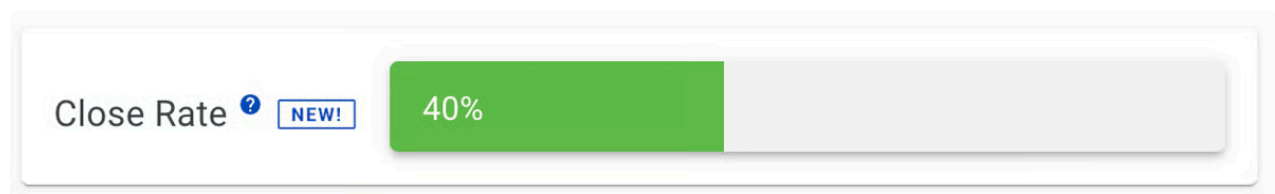

### PaintScout Leaderboards

Compare your sales performance against other PaintScout users with Sales and Win Rate leaderboards showing top 300 performers.

# Filtering the Dashboard

Learn how to use dashboard filters to refine sales metrics by date range, estimate type, and individual estimator performance.

PaintScout's dashboard filters let you refine your sales metrics by date range, estimate type, and individual estimator. The filters are located at the top of your Dashboard.

## What filter options are available?

### Filter by Date

Select a predefined date range or create a custom range from the drop-down menu to view metrics for a specific time period.

- Once you've selected a date range (except for custom), it will remain selected until you change it.

# PaintScout Leaderboards

Compare your sales performance against other PaintScout users with Sales and Win Rate leaderboards showing top 300 performers.

PaintScout Leaderboards rank your sales performance against other PaintScout users across the network. Two leaderboards track **Sales** (total value of accepted estimates) and **Win Rate** (percentage of accepted estimates), highlighting the top 300 performers.

---

## What are the Leaderboards?

PaintScout Leaderboards let users see how they compare to other sales reps across the PaintScout network in two key areas: **Sales** and **Win Rate**.

---

## How Ranks are Calculated

Users are ranked separately on two leaderboards:

1. **Sales:** Ranks players based on the total value of accepted estimates.
2. **Win Rate:** Ranks players based on the percentage of accepted estimates.

## Understanding Your Rank

Each leaderboard is ranked independently, highlighting the top 300 performers. You could be ranked on both leaderboards, just one, or neither—making every estimate count!

Both leaderboards display a player's Sales, Win Rate, and number of estimates sold to help users better understand the information presented.

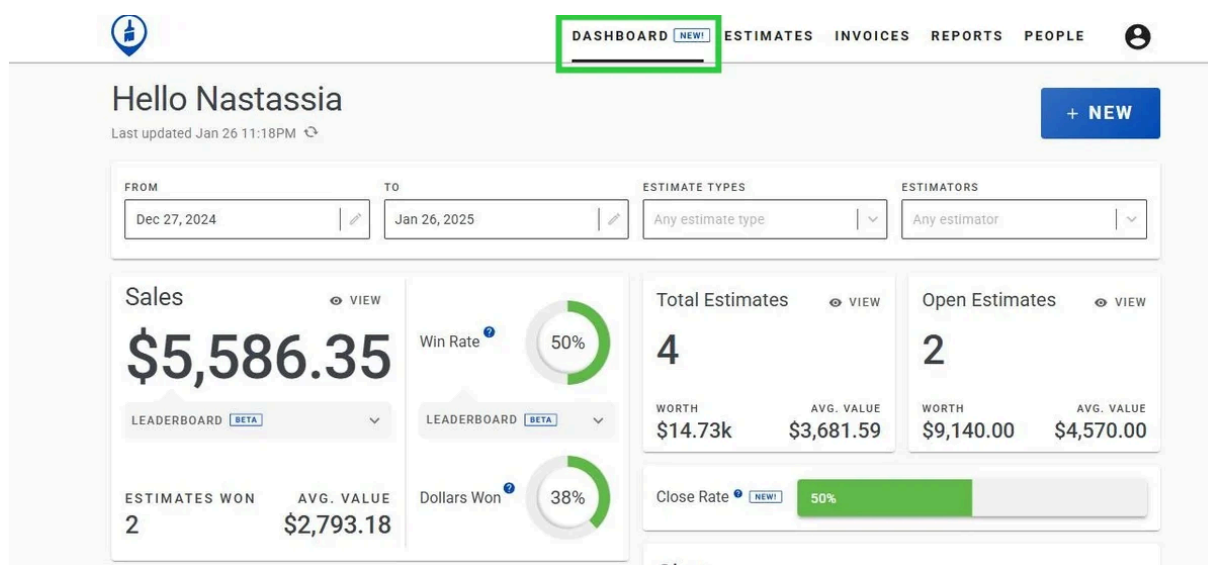

## When are Ranks Calculated

Ranks are calculated for the current month, previous month, and previous year:

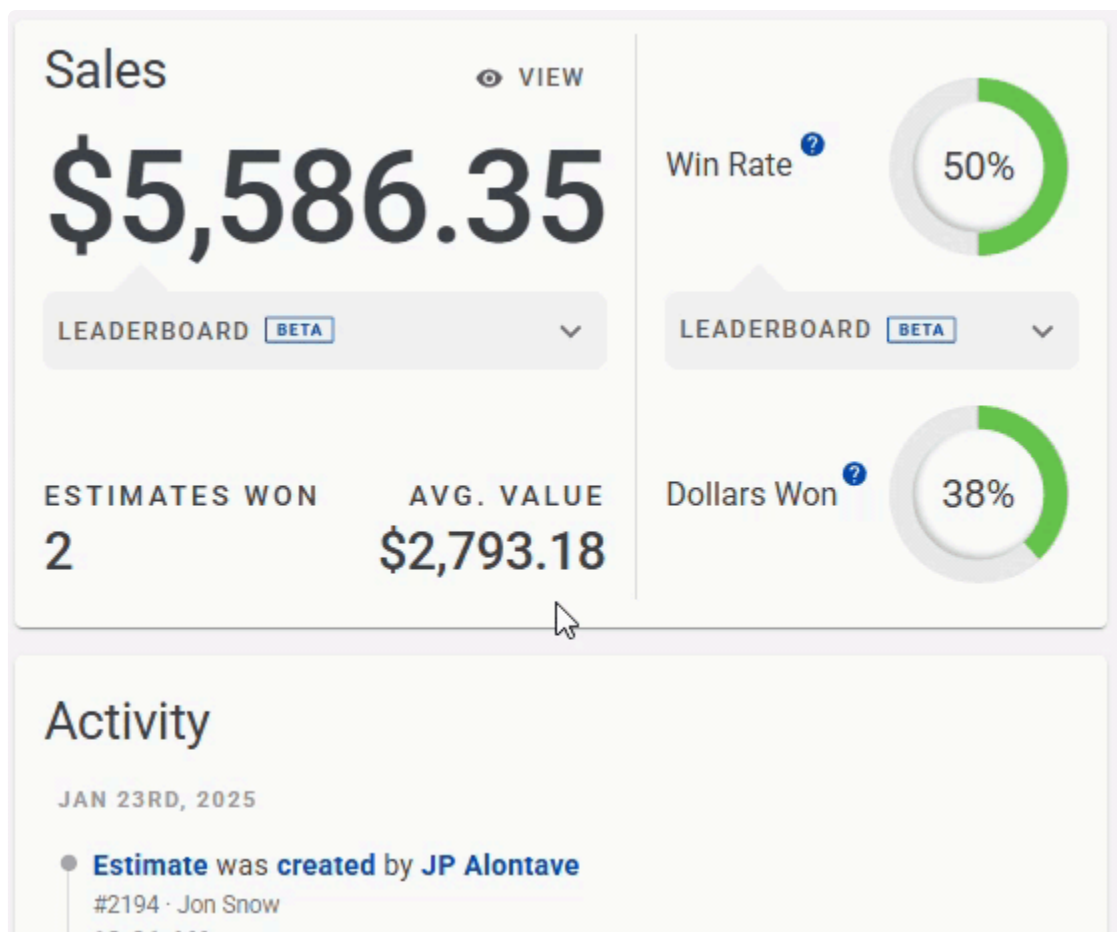

- **This Month:** Rankings reflect performance from the 1st of the current month to today. For example, if it's February 10th, the Leaderboard shows your Sales and Win Rate from February 1st–10th.
- **Last Month:** Rankings show data from the 1st to the last day of the previous month.
- **Last Year:** Rankings cover the entire previous calendar year, from January 1st to December 31st.

## Accessing the Leaderboards

1. To access the leaderboards, navigate to your Dashboard.

2. You can find each leaderboard under the **Sales** and **Win Rate** sections. Click the Leaderboard dropdown to access.

**Important Note About Accessing the Leaderboards:**

**1. Account Permissions Required**

- You must have a Sales account, or a Team seat with the permission enabled. Learn more about account permissions [here](#).

**2. Complete the Walkthrough Dialog**

- Go to your Dashboard > Click the Leaderboard dropdown > **Join Leaderboard** to get started.
- During the walkthrough, you will be assigned an **anonymous username** to ensure privacy.

### We Value Your Privacy

We've designed the PaintScout Leaderboards to protect your privacy, so no personally identifiable information is ever transferred or shown to users outside of your team.

As a PaintScout user you're automatically included in the Leaderboards, but you can opt-out at any time by [contacting us](#) ✉.

For more information about the Leaderboards and how PaintScout keeps your information safe, check our [Privacy Policy](#) ↗ and [Terms of Use](#) ↗.

---

## Understanding the Leaderboards

Once you have opened a leaderboard, you can identify whether it's the **Sales** or **Win Rate** Leaderboard by checking the title at the top.

### Your Rank

- Your position in the rankings will be highlighted in **blue**.
- If you are in the top 300, you can see the 5 ranks above and below you.
- The column highlighted in light grey indicates the data being ranked, while the other columns provide additional context to help you better understand the information.

### Not Ranked (NR) Players

If you or one of your team members shows up as Not Ranked, there are a few reasons why this might be:

- Not qualified in the top 300 players (Sales or Win Rate isn't high enough to make the top 300)
- Has not sent 10 estimates (only applies to the Win Rate leaderboard for This Month or Last Month time periods).
- Has not sent 50 estimates (only applies to the Win Rate leaderboard for Last Year time period).
- Our algorithm does not have the player on file. [Reach out to support](#) ✉ for more details.

Click the tooltip to learn why:

|  |                                |    |                   |       |        |       |
|--|--------------------------------|----|-------------------|-------|--------|-------|
|  | NR                             | NR | Nastassia Reicher | \$895 | 50.00% | 1     |

## ✓ Frequently Asked Questions

### Can I see my rank if I'm not in the top 300?

Currently, the leaderboard only displays the top 300 users. If you're not in the top 300, keep improving to increase your rank!

### What does "Sales" mean on the leaderboards?

Sales refers to the total dollar amount of accepted estimates.

### What is "Win Rate"?

Win Rate is the percentage of estimates that have been accepted compared to the total estimates sent.

### How often do the leaderboards update?

The leaderboards are updated periodically throughout the day. You can see when it was last updated at the bottom of the leaderboard.

|                                |    |                       |          |        |    |
|--------------------------------|----|-----------------------|----------|--------|----|
| 113                            | RG | Raspberry Grasshopper | \$84,992 | 80.95% | 17 |
| Last updated Jan 28 at 1:00 PM |    |                       |          |        |    |
| LEARN MORE                     |    |                       |          | CLOSE  |    |

### My dashboard stats don't match what shows on the leaderboards, how come?

It is likely because the leaderboard hasn't been updated yet, keep checking back and it should match up!

Please also note that the leaderboard stats look at the pre-tax totals and include archived estimates.

### How are tied ranks determined?

## Sales Leaderboard

When two players have the exact same total dollar amount of closed estimates, the Win Rate is used as the secondary stat to break the tie.

## Win Rate Leaderboard

When two players have the exact same win rate, the number of sold estimates (higher) is used as the secondary stat. If those are also tied, the total dollars sold is used as the third stat to determine the ranking.

---

## Why does it say I'm not ranked (NR)?

There are a few reasons why a player may not be ranked:

- Not qualified in the top 300 players (Sales or Win Rate isn't high enough to make the top 300)
  - Has not sent 10 estimates (only applies to the Win Rate leaderboard for This Month or Last Month time periods).
  - Has not sent 50 estimates (only applies to the Win Rate leaderboard for Last Year time period).
  - Our algorithm does not have the player on file. [Contact us](#)  for more details.
- 

## Can I change my username?

If you would like to change your username, please [contact us](#) .

---

## Can I opt out of the Leaderboards?

We think there's great value in what we can all learn from the PaintScout Leaderboards, but you can opt-out at any time. [Contact us](#)  to opt-out.
