

Estimate & Invoice Activity

Track estimate and invoice events including creation, sending, viewing, acceptance, and payments in the activity log.

The activity log in PaintScout tracks every event on an estimate or invoice — creation, sending, viewing, acceptance, and payments. Access it from the dashboard or within any individual estimate or invoice.

Where do you find activity on the dashboard?

The **activity** section on your dashboard shows recent events across all estimates.

How do you view activity on an estimate?

Open the sidebar menu and select the **Activity** tab to see all events for that specific estimate, including when customers viewed or interacted with it.

Activity Types	Screenshot
Estimate Sent: Find out when the estimate was sent, what the email contained, and even restore the estimate to this version if needed. Estimate Viewed: Track when and how long your customer checked out the estimate. Estimate Accepted: Keep tabs on when your customer accepted the estimate, complete with their signature. Thank You Message Sent: Verify that the automatic thank-you message reached your customer. Payment Added: Spot the moment a successful payment is made via Stripe or reported directly on the estimate.
