

Create a New Estimate

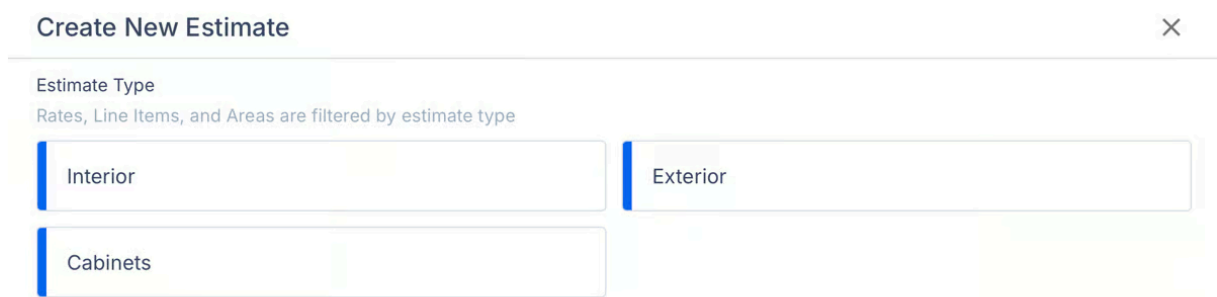

Start new estimates from the dashboard using templates or blank quotes and add areas and line items to build your proposal.

To create a new estimate in PaintScout, click the **New** button, select an estimate type, choose a template or blank quote, and start adding areas and line items.

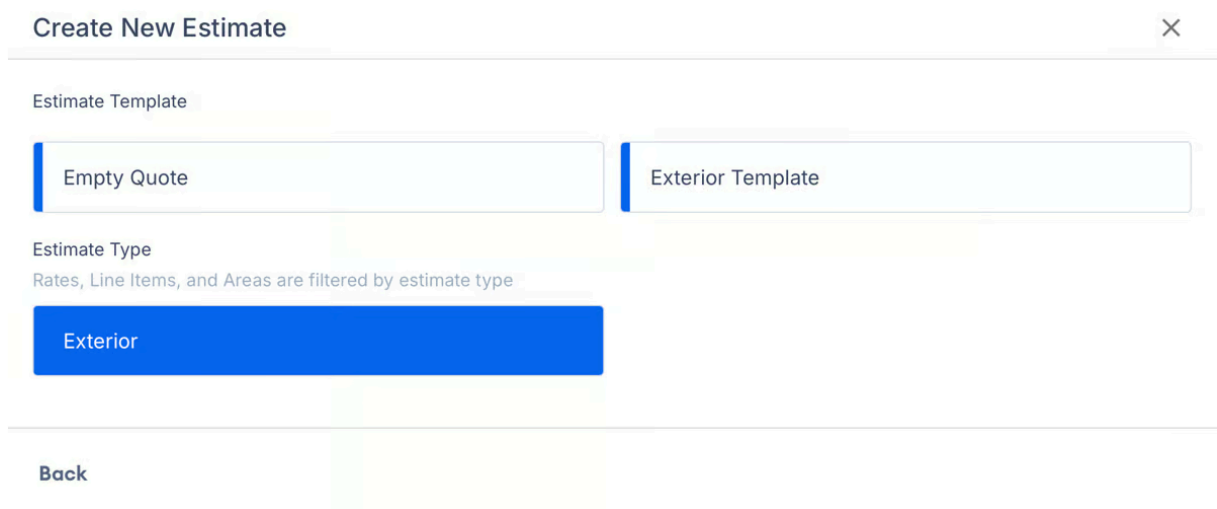

1. Click the **New** button on the Dashboard or the Estimate page.

2. You will be prompted to select an estimate type. [Learn more about estimate types >](#)

3. You now have the option to either start from a pre-created template or begin with a blank estimate by choosing **Empty Quote**. [Learn more about templates >](#)

4. Add a **Contact** directly from your [Contacts ↗](#), or create a **New** contact.

-  If certain items aren't available when you're creating your estimate, they might not have been enabled for that estimate type.

Head to your **Account Settings** and ensure that the missing items are enabled for that estimate type.
