

Grouping Items

Group surfaces, areas, or line items together to organize estimates by floor, house side, surface type, or custom categories.

Grouping in PaintScout lets you combine related areas, surfaces, or line items into a single named group on your estimate. This makes estimates cleaner and easier for customers to read.

What is grouping?

The grouping function brings together a set of surfaces or areas to organize your estimate. Common examples:

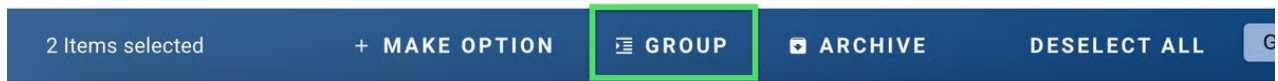

- Arrange your estimate by floors: Main Floor, Upstairs, Basement, and more.
- Break down each side of a house: Front, Left, Right, Back, and then group them to display as the Whole House.
- Group by surface type: Group up all the trim components together (baseboards, windows, door frames)

How do you make groups?

1. Start by selecting the areas, surfaces, or line items you want to group by clicking the checkboxes to the left.

☐	Office	\$698.31	...
	Walls, Baseboards, Ceiling		
☒	Living Room	\$3,033.05	...
	Walls, Baseboards, Ceiling		
☒	Entry Way	\$673.96	...
	Walls, Baseboards, Ceiling		
☐	Dining Room	\$1,241.40	...
	Walls, Baseboards, Ceiling		

2. Once you have chosen all the items you want to group, select the **Group** option from the toolbar at the bottom of your screen.

3. A pop-up will appear, where you can then edit your group. You can add a name, adjust the price, and customize the description.

A screenshot of the 'Edit Group' pop-up form. The title 'Edit Group' is at the top left. Below it is a 'NAME *' field with the text 'Main Floor'. Underneath is a 'DESCRIPTION *' field with a rich text editor toolbar (bold, italic, underline, bulleted list, numbered list, link, and a 'RESET' button) and the text 'Paint the Walls, Baseboards, and Ceilings in the **Living Room** and **Office** on the Main Floor.' Below the description is a 'PRICE' field containing '3,707.01'. At the bottom is an 'Items' section with a table header 'Item'. Below the table is an 'ADD MEDIA' button with a photo icon. At the very bottom are two buttons: 'CANCEL' on the left and '✓ ADD GROUP' on the right.

4. Scroll down on the window, and you'll find options to add photos to the group or edit individual areas/items by clicking the three dots.

Items

Item			
Living Room Walls, Baseboards, Ceiling	36.25hr	\$3,033.05	...
Entry Way Walls, Baseboards, Ceiling	8.25hr	\$673.96	...
ADD MEDIA			
CANCEL		✓ ADD GROUP	

5. Finally, save your group and this is how it will appear:

Main Floor	\$3,707.01
Paint the Walls, Baseboards, and Ceilings in the Living Room and Office on the Main Floor.	

How do you edit a group?

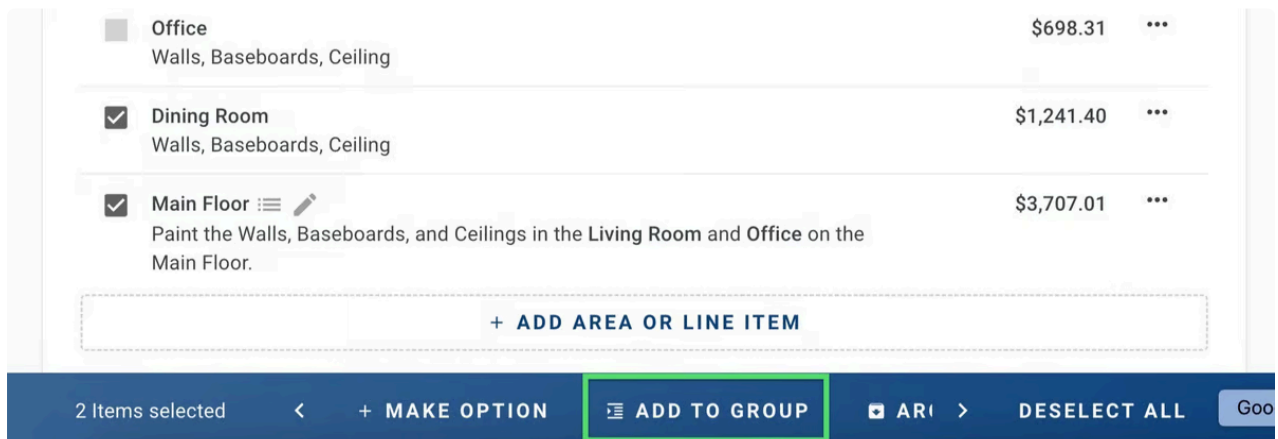

1. Click directly on the group **or** press the three dots on the right side to edit and make changes to the group.

Dining Room Walls, Baseboards, Ceiling	\$1,241.40	Edit Make Option Archive Copy Ungroup
Main Floor Paint the Walls, Baseboards, and Ceilings in the Living Room and Office on the Main Floor.	\$3,707.01	
+ ADD AREA OR LINE ITEM		
Options Added		

2. You can then click the three dots to the right of the included area you would like to edit.

How do you add more items to a group?

1. If you've got an existing group, check the box to the left, and also select any additional areas or surfaces you want to include in the group.
2. After that, hit the **Add to Group** option from the toolbar at the bottom.

Please note that once you have grouped items, you can only add similar items to the group.

- Areas can be grouped with other areas.
- Surfaces can be grouped with other surfaces.

For example, if you group 2 areas (rooms) together and then switch to surface view, you cannot add surfaces to that group, only other areas!

How do you ungroup items?

You can ungroup items in three ways:

- Use the checkbox to highlight the group, then press **Ungroup**.

☒ **Main Floor**  \$3,707.01 ...
 Paint the Walls, Baseboards, and Ceilings in the Living Room and Office on the Main Floor.
